

Sean Mullen

Vice President and Regional Sales Leader, U. S. Public Sector

Sean Mullen is Vice President and Regional Sales Leader of DXC Technology, U.S. Public Sector, where he is responsible for leading sales, strategy and business development for the region. Mullen leads an organization that is focused on growth by developing customer-centric IT solutions, exhibiting thought leadership and presenting unique value propositions to government clients. As part of the executive team, he is responsible for operationalizing strategy, sales and business plans while driving a customer focused culture.

Mullen formerly served as the Area Sales Leader within HPE for the Department of Defense (DoD)/Federal Security market where he led a combined sales and capture management organization supporting the Department of Homeland Security, Department of Justice and Department of State accounts.

Prior to DXC and HPE, Mullen served as Vice President of Accounts within Northrop Grumman Information Systems where he led an account team focused on major accounts across the public sector market.

Mullen started his career as an Air Force civilian in the acquisition career field purchasing IT and command and control solutions for the DoD. In that role, he led acquisition teams for the procurement and administration of contracts managed by Electronic Systems Center, Hanscom Air Force Base.

Mullen has a Bachelor of Science degree from Merrimack College and a Master of Business Administration from the University of Massachusetts. He has also completed leadership training at University of Virginia's Darden Graduate School of Business Administration and University of Chicago.
